

NALOXONE STANDING ORDER – _____ (pharmacy name)

Naloxone is indicated for the reversal of opioid overdose induced by natural or synthetic opioids in the setting of respiratory depression or unresponsiveness. It is contraindicated in patients known to be hypersensitive to naloxone hydrochloride.

This standing order authorizes _____ (pharmacy name) to maintain supplies of naloxone kits for the purpose of prescribing and dispensing an opioid antagonist to a person at risk of experiencing an opioid-related overdose or to a registered pain management clinic, family member, friend or other person in a position to assist such person at risk of experiencing an opioid-related overdose.

Order to Dispense

Upon the order of a written prescription for chronic use of an opioid medication, _____ (prescriber name) recognizes that the named patient is at risk of experiencing an opioid-related overdose or is a family member, friend, or other person in a position to assist a person at risk of experiencing an opioid-related overdose. Chronic use of opioid is defined as daily or near-daily use of opioids for at least 90 days, often indefinitely. Upon completion of training regarding recognizing and responding to suspected opioid overdose, _____ (pharmacy name) will dispense one naloxone kit, instruct that the naloxone is to be present whenever persons may be intentionally or accidentally exposed to an opioid to treat serious opioid overdose and to include at a minimum:

- Two Luer-lock needless syringes containing 2cc of a 1mg/cc solution of naloxone
- Two nasal atomizers or two intramuscular needles
- Printed materials regarding naloxone administration instructions, overdose prevention and treatment, to include information regarding recognizing and responding to suspected opioid overdose, and the importance of summoning emergency responders

OR:

- Two 1ml vials of naloxone hydrochloride OR two 10mL vials of naloxone hydrochloride
- Two intramuscular syringes (1mL vials) OR ten intramuscular syringes (10mL vials)
- Printed materials regarding naloxone administration instructions, overdose prevention and treatment, to include information regarding recognizing and responding to suspected opioid overdose, and the importance of summoning emergency responders

OR:

- Evzio injection 2 mg naloxone hydrochloride solution in a pre-filled autoinjector
- Become familiar with the following information contained in the carton as soon as they receive EVZIO:
 - EVZIO Instructions for Use
 - Trainer for EVZIO Instructions for Use
 - Trainer for EVZIO
- Practice using the Trainer before EVZIO is needed
 - Each EVZIO (purple and yellow) can only be used one time; however, the Trainer (which is black and white) can be re-used for training purposes and its red safety guard can be removed and replaced.
 - Both EVZIO and the Trainer for EVZIO incorporate the electronic voice instruction system.
- Printed materials regarding naloxone administration instructions, overdose prevention and treatment, to include information regarding recognizing and responding to suspected opioid overdose, and the importance of summoning emergency responders

_____ (pharmacy name) will log all dispensed kits in a format approved by the ordering physician.
